

Horace Grace Tutoring utilizes research-based strategies that have been tested and proven to be effective. We use data from a diagnostic assessment to establish a baseline for learning and to create a differentiated pathway for all students to improve in their academic studies. We use the following strategies:

- We provide clear learning goals.
- We use a gradual release process where the teacher models, provides guided practice, and gives an opportunity for independent practice.
- We use questioning techniques to help students probe their thinking when learning.
- We use hands on materials and thinking maps to promotes linkages between concrete and abstract learning.
- We use formative assessments at the end of each session to assess learning and to guide instruction.

We are here to make a difference in learning!
